Winter 2018

5 Things Series: Workshops for Busy People

TLC: Let the TLC come to you, with LOTS

Library: Let the new A to Z list introduce you to library databases

STARS: Help your students get ready to succeed

Get ready for WACC 2018

TLC 5 Things Workshops

30 minutes to learn something new, then stay and play or head back to work or class.

For a complete schedule, visit http://sites.southseattle.edu/tlc/tlc-calendar-south

Ready for the New Year?

At this very moment, you have access to much of the same software, tools and technology found at top universities, Fortune 500 companies, Silicon Valley startups and leading nonprofits. Are you using these software, tools and technology to empower your life, streamline your work and fuel your creativity? Or are you feeling overwhelmed by new technology, drowning in email and at a loss for where to start?

This quarter, let us show you how to master the tools, so you can get back to focusing on what you enjoy, love and do best.

TLC Presents the 5 Things Series: Workshops for Busy People

Workshops are great, but finding time to attend can often be a challenge. This quarter the TLC has your back with our new 5 Things Workshop series. Give us 30 minutes and we will introduce you to five things; websites, tools, resources, features or technology uses that you can incorporate into your work life. Each workshop is only 30 minutes long and you are welcome to stay another 30 minutes to explore what you have learned and ask questions.

- 5 Online Tools to Help You Get Organized
- 5 Ways to Use Library Databases
- 5 Amazing Things Available from Google
- 5 Great Ways to Use Lynda.com
- 5 Canvas Hacks that Will Save You Serious Time
- 5 Reasons to use OneDrive and OneNote
- 5 Microsoft Outlook Hacks that Will Tame Your Email
- 5 Great Things About Office 365
- 5 Ways to Prepare Your Class for an Emergency
- 5 Things Alternative Uses for PowerPoint
- 5 Ways to Improve Your Microsoft Word documents
Let the Teaching and Learning Center (TLC) come to you with LOTS, Live Online TLC Support

We are always happy to meet you in person, but with LOTS (Live Online TLC Support) you can get help from anywhere with an Internet connection. Using Zoom (https://zoom.us/), a web conferencing tool, TLC staff can collaborate with you online, view your screen and provide assistance. LOTS is easy to set up and free. For more information, or to schedule an appointment, visit http://southseattle.info.

Explore Library Databases from A to Z

The new A to Z Database list allows students to browse, sort, search and access library research databases. Students can now search by topic or see databases recommended for their subjects.

Students Can Get Help with Campus Computing Resources and Popular Software in the Library

The STARS (Student Technology Advice & Resource Support) are peer mentors located at the LAB HELP desk in the Library Information Commons. STARS are available to help students navigate computer resources on campus and assist students with basic technology literacy questions, such as login assistance, printing, software use and Canvas.

STARS are available during library open hours. For more information, call the Reference desk 206.934.6408 or visit the Library Information Commons website, http://sites.southseattle.edu/stars.

Get Ready for WACC 2018

Washington State’s Annual Canvas Conference (WACC) is a collaborative (2 day) conference focused on enriching higher education Canvas users. While primarily focused on faculty, administrators and staff are always welcome! This year the conference will be hosted at Tacoma Community College, March 29th - 30th. Workshop and demo proposals are being accepted until February. For more information, visit https://wa-cc.com/.
